

Full Body Sling E-clip

Comfortable fit

Optimal support

Safe E-clips

Suitable for many lifting situations

Our Full Body Sling E-clip is a comfortable sling that is ideal for people who like full body support during the lifting process. This sling is available with integrated headrest or with removable stiffeners in case this sling is used for longer periods of time (in-situ).

Thanks to its special shape, the Full Body Sling E-clip provides a comfortable support to the head, torso and thighs, keeping the client in a safe posture. This sling will position the client into a reclining position, reducing the pressure on their legs. This can also be a pleasant posture for clients with reduced core stability and/or with a tendency to overstretch. In a reclined position, the client will not be able slip from the sling. Thanks to the integrated, reinforced headrest, this sling can even be used to lift up clients from flat surfaces, such as the floor. The slings are designed for four-point suspension from a spreader bar and are available in 2 materials.

Polyester net is a **soft**, thin material that breathes and dries quickly. It is mildly elastic and shapes itself to the client's body. The sling can stay behind the client for a short period of time. An additional advantage is that the sling is very suitable for showering and bathing.

Soft Air Mesh is a lightweight, cool, soft and breathable fabric with moisture-wicking properties, which means it draws moisture away from the skin through the fabric where it can evaporate quickly. Another advantage of this material is that it is anti-bacterial for improved hygiene. The sling has "two-way stretch" properties, making it feel almost as a second skin.

Mobility Aids

Hygiene

Convertible Chairs

Accessories

Spreader bar

For HeliQ stationary lift, available in Small (manual), Medium and Large (electric). Art. No. 92441, 92442 and 92443.

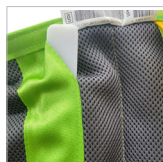

Spreader bar

For Diana II Comfort 4ESB (electric). Art. No. 90560.

Spreader bar

For Diana II/ Diana II Comfort 4MSB (manual), Art. no. 90558/ 90559.

In-Situ

The Full Body Sling In-Situ E-clip has removable ribs in case the sling remains behind the patient. Art. no. 25011C

Use

From and into bed

Suitable for lifting clients from bed and helping them sit down on bed.

From and to a chair

Suitable for positioning in a chair and for transfers in and out of a chair.

Showering

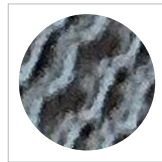

The Polyester Mesh material is highly suitable for wet environments.

To and from the floor

Designed for lifts from the floor.

Features

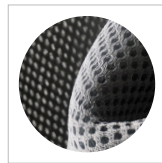

Polyester Net

A soft and thin material that breathes and dries quickly. Ideal for showering and bathing. Article. No 25005C.

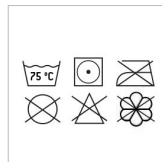

E-clip integrated lock

Can be used one-handed. Universally compatible with all lifts equipped with mushroom fasteners Ø 6.8-8.2 mm.

Soft Air Mesh

Great pressure-relief. Excellent pressure distribution thanks to the 3D-structure of the fabric. Prevents and protects. Art. No. 25010C/25011C

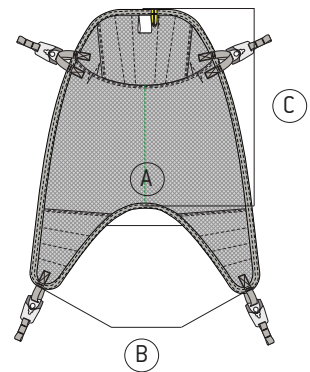

Cleaning and care instructions

For cleaning and care instructions, see the label of the sling. Wash in an approved laundry bag.
